

**MUSIC of the LIGHT**  
**Ean Gidman**

Soprano, alto and tenor saxophones, flute  
(ecg@gmx.org)

This musician originates from Manchester (UK) and is not only a virtuoso on the saxophone but also an excellent flautist. With a setup of around 50 multi-functional, musically programmed LED lights, his 3 saxophones and flute Ean Gidman lets musical borders disappear and the ... church sparkle in colorful splendor. Sophisticated light scenes continually change with the music and immerse the building in dreamlike colors. The music covers an amazing range from film to musical and from well-known and not so well-known rock and pop songs to popular classical pieces.

He studied music in London and has been living in Euskirchen, near Cologne, Germany for the last 20 years.
